

## **N443 IRRIGATION SYSTEM, SURFACE AND SUBSURFACE**

- ☐ A Vendor Input/ACH-EFT Application must be completed before a contract may be created. This form allows a 1099-G to be submitted to you at the end of the year. It also allows for your reimbursement to be sent to your account electronically once your project is completed.
- ☐ Cooperators must have an irrigation water management plan.
- ☐ Cost share is authorized for surge valves and/or improved water distribution pads for furrow irrigation systems and establishment of a side-inlet flood irrigation system on fields that have been irrigated three of the last five years.
- ☐ Lay Flat Tubing is a one time cost share payment, not to exceed 75% cost share up to \$3.00/acre, and up to 80 acres.
- ☐ Practice must be maintained for ten years.
- ☐ I certify that I have not started the practice. I understand that if I begin the practice before I receive official notification of approval from the district board I am not eligible to receive cost-share assistance for completing the practice.
- ☐ I understand that the district board of supervisors must approve any modification in the design of the practice. Failure on my part to request changes and obtain board approval of the changes may jeopardize my cost-share payment for the practice.
- ☐ I understand that I am not eligible to receive payment for installing the practice until it meets NRCS Standards and Specifications within Commission policy.
- ☐ Once claim has been signed and approved it will take approximately 4-6 weeks before the reimbursement is issued to your account.

***I have read the above cost share policies and procedures and understand them. I assume full responsibility for all expenses incurred if I fail to follow these policies and procedure.***
